Brief Description Of Services :

Uprising isn't just an organization, it is a movement. We believe that exploitation of even one person is too much and we're working tirelessly to shine a light on how this is happening, even in Wyoming.

Working with other individuals, groups, and organizations we can create more awareness surrounding human trafficking and exploitation and expand prevention education efforts. Together we can help ensure our communities are the safest possible.

Uprising specializes in human trafficking/sexual exploitation training and prevention education for professionals, community members, and youth of all ages. Some of the classes and services we offer are:
